Mitch Walcott – under_tones

How to use 'Mitch Walcott – under_tones' ringtones on your iPod Touch 4 or iPad 1/2 ?

Since iPod Touch 4 and iPad 1/2 are not meant to be used as phones, the use of 'Mitch Walcott – under_tones' will be limited to various alerts and internet activity on these devices.

Note :

ipod Touch versions prior to the fourth generation are not covered in this tutorial but many 'How To Do' can be found on the web. Warning, you could be asked to 'jailbreak' your device and this practice is not legally authorized by Apple.

Follow this short and easy tutorial to experience fully 'Mitch Walcott – under_tones' on iPod Touch 4 and iPad 1/2.

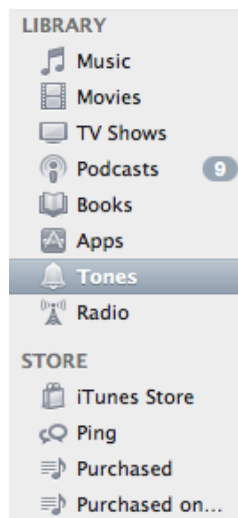

Step 1

Download and install the latest version of iTunes at Apple website (Free – PC/Mac)
<http://www.apple.com/itunes/>

Download and unzip 'Mitch Walcott – under_tones' at Wildscapes Bandcamp Shop (Free)
<http://wildscapes.bandcamp.com/album/under-tones>

Step 2

Open iTunes and have a look at the upper left side, your library provides you with a 'Tones' folder.

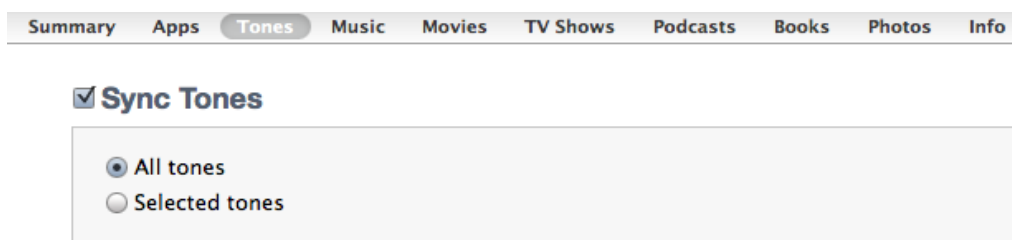

Select the 'Tones' folder with your mouse and move the files (.m4r) from 'Mitch Walcott – under_tones' into this folder.

Now, you can preview each ringtones if desired.

Step 3

Connect your i-device to your computer using iCloud or the USB cable, it should quickly appear in the list of 'connected devices'.

Select your i-device with your mouse. You'll see the different categories of your i-device, select 'Tones' with your mouse.

Check the box 'Sync Tones' and chose 'All Tones' or 'Selected tones' if you don't want to install them all.

Click 'Sync' on the bottom right of iTunes.

iTunes will now synchronize and will copy 'Mitch Walcott – under_tones' into the i-device ringtones library.

Step 4

On your i-device, go to 'Setting' and the sub category 'Sounds'.

All 'Mitch Walcott – under_tones' ringtones are now available in the various sounds related activities as seen on the picture :

Ringtone
Text Tone
New Mail
Sent Mail
Tweet
Calendar Alerts
Reminder Alerts

Etc...

You're now ready to assign them all to any function you wish on your i-device.
